

ARHipp

What is ArHipp?

The Arkansas Health Insurance Premium Payment (HIPP) is designed to save money for Medicaid clients with high healthcare costs by reimbursing all or a portion of the cost of their health insurance provided by an employer or COBRA and by eliminating some of their out-of-pocket medical expenses. In some cases, clients may qualify to receive reimbursement for the premium cost of a family health insurance policy.

ArHipp helps you cover healthcare for your entire family, even family members who are not eligible for Medicaid, if found to be cost-effective for the State of Arkansas.

Who is eligible for ArHipp?

- The Arkansas HIPP program is specifically for qualifying Medicaid clients and their families who have access to group health insurance through a job or COBRA.
- Your health insurance must cover at least 1 Medicaid beneficiary.
